It's a cold world, sometimes I feel all alone  
It's a long road, that I'm rolling on  
And I wonder, if I'm on the path I should have taken  
And I'm still here, even though my heart is breakin'

Chorus: Someday I'm gonna find what I'm looking for  
Someday I'll find my place in this world  
Someday I'm gonna know why I'm here  
When I find, what I'm looking for

It's a big old world, and sometimes I lose my way  
But I keep searching, and I get closer every day  
I can't look back, and I can't go back in time  
I gotta move one, and leave the past behind

Chorus
