I want to feel your body close  
And I want to hear every breath  
And every word, every waking moment  
I dream of you

I want you to love me like I've never felt love before  
Warm me, hold me and I want you to take me  
To your secret place beneath the brazen skies  
Under the harvest moon

And come inside my dream cave  
Come inside my rainbow shell  
And come inside my dream cave  
And I will show you

We bathe in shadows  
Chocolate kisses linger  
The air is heavy and sweet in this luscious tangle  
In this luscious tangle of oblivion

And come inside my dream cave  
Come inside my rainbow shell  
And come inside my dream cave  
And I will show you

Come inside my dream cave  
Come inside my rainbow shell  
And come inside my dream cave  
And I will show you

Come in, come in  
Come inside, yeah  
Come on in baby  
Come on in, yeah

Come on in baby, come on in  
Come on in baby, come on in  
Come on in baby, come on in

...
