Loving spirit loving me  
Love in silence loving me  
The sweetest sound of love  
The sweetest murmur of motion

Go where you will  
Angel of the kiss

Heaven sent you to me  
Heaven sent you to me  
Heaven sent you to me  
Heaven sent you to me

Blue birds the sky light up  
Heart felt a little fire fly light  
You will be something special  
You are the key to everything

You renewed me  
You blessed me

Heaven sent you to me  
Heaven sent you to me  
Heaven sent you to me
