Look at us down here, making all this fuss  
We know better than that, only ignorance shall destroy  
us

Some are out of control; most of us are wanderers  
Which way will we go? Which way will we go?

Love it away, love it away  
Love it away, love it away

Listen to your heart when you are lonely, listen to the  
quiet voice inside you  
Listen to your heart when you are lonely, telling you  
which way to go  
Should I turn right, should I turn left?  
Weve all the answers inside us  
Should I turn right, should I turn left?  
Youve all the answers inside

Love it away, love it away, love it away,  
Love it away, love it away

Listen to the lump in your throat tell you something it  
wants to say  
I know it hurts, it doesn't have to  
Listen to your heart

Love it away, love it away,  
Love it away, love it away,  
Love it away, love it away,  
Love it away, love it away  
Listen to your heart
