Come come warm wind  
Come touch my skin  
Let me fade far away  
Nothing is here to stay  
Come come warm wind

Come come gentle rain  
Come cool my skin  
Feels like a tender kiss  
Nothing that you should miss  
Come come gentle rain  
Come come sweet sun  
Come warm my skin  
Touch me with golden rays  
Melt all blue moods away  
Come come sweet sun

Come come cool moon  
Come shine on me  
You send me secret dreams  
Nothing is what it seems  
Come come cool moon  
Come come cool moon
