I don't know - I don't know
The place where we all go one day
I don't care, I don't care
Still at times I'm kind of scared in a way
I am free, I'm so free
But I'm with you, I'm not alone - luckily

Driftwood and tumbleweed
Some days are just too good
The air seems to be all I need
Don't care for solid ground
Driftwood and tumbleweed
Guess I'll vanish in the clouds

Driftwood and tumbleweed
I'm not here for good
Maybe love is all I need
To keep me on the ground
Driftwood and tumbleweed
Make me want to stay around

Driftwood and tumbleweed
We're not here for good
Maybe love is all we need
To give some solid ground
Driftwood and tumbleweed
For a while we'll stay around

I don't know, I don't know
The place where we all go one day
I don't care, I don't care
Still at times I'm kind of scared in a way
I am free, I'm so free
But I'm with you
I'm not alone - luckily
