Hostile looks and friendly fire
Of words that hurt
Of smiles unreturned
Please- turn your back on me
It's not what i wish for
It's no my desire
To live in world of enemies

Enemy- no enemy
Enemy- no enemy
Don't let them creep inside of me
Enemy-no enemy
There is no room inside of me
For enemies no enemy

Don't you want to spend some time
Thinking of friends
You now it's a waste
Of heart and of the fire
That is burning
Inside of you
Don't blow it all away
Enemy- no enemy
Enemy- no enemy
Don't let them creep inside of me
Enemy- no enemy
I'll make no room inside of me
For enemies no enemy
