I swim it all away  
I swim it all away  
I am as fast as a shark  
In the deep blue sea  
And nothing really matters  
All that much to me  
When i swim it all away  
I swim it all away  
I'm fast and i don't care  
About the past i ut dare  
To be tall, can't recall  
How small i felt yesterday  
Now i swim it all away

You're a big white whale  
You're gentle and pure  
And you now how to go  
Along with the endless flow  
When you swim it all away  
You swim it all away  
Come swim it all away  
Come swim it all away
