How long can i here be  
Grey days are passing by  
Like an endless dream  
And no one to tell you  
It was just a dream  
Now it's all too real  
And no one can catch you  
As you're falling deep  
And you're falling deep (???)

How long can i here be  
Until you realize  
Life's too good to you

When you open your eyes  
You will see clearly  
Clouds (???) Have gone away  
... Falling (???) Slowly  
And you ..... You see  
It's too good to be [this whole part is damn difficult to  
understand]

It's good to be you  
It's good to be me  
It's good to be you  
It's good to be me

Finally  
Finally  
Finally  
Finally  
Finally  
Finally  
Finally
