"Follow The Sea"

One day I'll follow the sea
It's calling me
It's calling me
Like a om shanti

One day I'll follow the sea
My heart is an ocean
My soul is the sea
The waves are my potion
You can follow me
You can follow me

I want to follow the sea
A lonely to strong
A lonely to strong
Like a sailor song
I want to follow the sea

Right now
I follow the sea
Alone on my own
Alone on my own
I will come back home
Right now
I follow the sea

My heart is an ocean
My soul is the sea
The waves are my potion
You can follow me

My world is an ocean
I'm floating I'm free
The sea-fish in motion
You can follow me
You can follow me
You can follow me
