

Donna Regina "How Beautiful"

Visit "[How Beautiful](#)" on MotoLyrics.com

Waking up
In a distant place
I don't know the time
But it must be night
Cause it's dark outside
Real dark outside
I am lost in space
The light of my life
Just left me behind
Left without a trace
Just left me lost in space

How beautiful
Now i realize
It's not for real
This was just a dream
And i'm not alone
No i'm not alone
I'm not lost in space
There will always be a place
That i can call my home
And the light of my life
Wil never leave me lost in space
Wil never leave me lost in space
How beautiful
Now i realize
It's not for real
This was just a dream
And i'm not alone
No i'm not alone
