Let me listen let me be
Let me listen- silently
To the sound of the sea
Something in going on
Between the sea and me
The blue blue sea and me

Let me listen let me be
Let me listen- silently
To the sound of the trees
Something in going on
Between the trees and me
The whispering trees and me

Let me listen let me be
Let me listen- silently
To the sound of the wind
Something in going on
Between the wind and me
The wild wild wind and me

I don't want to talk
Let me listen- silently
To the sound of your heart
Something in going on
Between your heart and me
Your open heart and me

Let me listen let me be
Let me listen- silently
I don't want to talk
