Lately
Yor heart starts to get a little lazy
Lately
Your mind sometimes seems a little misty
Lately
Your look has turned a little to cloudy
Lately lately
Wake up wake up you lazy heart
Sometimes your are such a fool
There will always be
So much new to feel
If you dare to
Wake up wake up you misty mind
Someting you are too content
There will always be
So much new to know
Until the end
Wake up shake off your cloudy look
And open up your eyes
There will always be
So much new to know
High time to start
To wake up
You lazy heart
