Glorious moments - I try to hold tight  
Though I should know now  
That they will never last  
I see my future - fading into past  
The world around me  
Seems to move much too fast

Let's get slow, let's get slow  
Let the world hurry and rush around us  
We'll take time, we try to flow  
Let's get slow, let's get slow

I see my future - fading into past  
The world around me  
Seems to move much too fast  
Come get closer, take a good look and see  
Maybe for the last time  
The beauty in me

Let's get slow, let's get slow  
Let the world hurry and rush around us  
We've got time, we just flow  
Let's get slow, let's get slow
