My sweet little baby
How i sometimes long
To hold you close
To sing you a song
To hear you breathe
To know that you are real
But it just happened to me
That my sweet little baby
Will never be there
Sometimes i don't care
Sometimes i don't care
Sometimes i don't care
Oh my precious little baby
How i sometimes want
To see my matching eyes
Inside of yours
To feel complete
But it just happened to me
That my precious little baby
Will never be there
Sometimes i don't care
Sometimes i don't care
Sometimes i don't care
I guess i don't care

My dear little baby
Though i'll never know
The colour of your eyes
The sound of your song
I will get along
And i'm complete
Though it just happened to me
Just happened to me
Just happened to me
