You're drowning
Drowning in a sea of tears
You've been crying
For a hundred years
You're drowning
In a sea of tears

You're getting lost
Lost in a desert of doubts
Where everything you touch
Seems to turn to dust
You're getting lost
In a desert of doubts

You're falling
Falling from a mountaintop
You've left behind
All your high high hopes
You've falling
From a mountaintop

Make a move, make a move
Get out of your november mood
Come and see me, I'm your friend
I want to see you smile again
Make a move , make a move
Get out of your november mood
Cry awhile, then say goodbye
To the blue and idle gloom
Make a move , make a move
