I sing a song to the wind
My words go astray
They get carried away
I sing a song to the wind
I sing a song to the waves
The moodiest tune
Gloomy and blue
I sing a song to the waves
I sing a song to the sky
I'm lost in space
In that's loneliest place
I sing a song to the sky

I sing a song to the moon
The loneliest tune
Melancholic tune
I sing a song to the moon
I sing a song to the night
A new motion of chance
In the loneliest lands
I sing a song to the night
I sing a song to a boy
In heaven's above
I sent him my love
I sing a song to a boy
I sing out to you
But you're out of touch
I miss you so much
I sing a song out to you
I sing a song to the waves
I sing a song to the sky
I sing a song to the moon

I sing a song to the night
I sing a song to a boy
I sing a song out to you
