

Donna Regina "Northern Classic"

Visit "[Northern Classic](#)" on MotoLyrics.com

He's a northern classic - you don't know
He's a northern classic - what he's got to show

He's a northern classic
And his look is polar
His eyes a bluish - green
Like a cool aquamarine
He's a northern classic
You think his heart is arctic
But I know when it melts
Ist a spring river that swells
He's a northern classic
He's a northern star
He is polar on the outside
But inside he's solar
He's a northern classic
Can't you see
He's a northern Classic
He's for me!
