Passer - by, passer - by, I'm just a passer - by  
Passer - by, passer - by, I'm just a passer -by  
And if you're not careful  
I could fly  
And if you don't hold tight  
I will fly - away

Passer - by, passer - by, maybe I'm a passer - by  
Passer - by, passer - by, maybe I'm a passer - by  
And if you too mindful  
I will fly  
But if you don't hold too tight  
I will stay - with you

Passer - by, passer - by, you might be just a passer - by  
Passer - by, passer - by, you might be just a passer - by  
Passer - by, passer - by, you might be just a passer -by  
And if I'm not careful  
You might fly  
And if I don't hold tight  
You might fly - away

Passer - by, passer - by, are you just a passer - by?  
Passer - by, passer - by, are you just a passer - by?  
If I'm not too mindful  
Will you stay?  
And if I don't hold too tight  
Will you stay - with me?
