I take a long walk in the rain
A hazy day, a lazy mind
When nothing is guaranteed
I just leave my worries behind
On a long walk in the rain
I'm glad to be alive again

How hard do I try
To be free, to be free
How scared I am
To be lost and lonely

Let's take a long walk in the rain
A hazy day, a lazy mind
When nothing is what it seems
We'll just leave our worries behind
On a long walk in the rain
I'm glad to be by your side again

How hard do I strive
To have a good life, to have a good life
How fast do I run
For a place in the sun

A long walk in the rain
A hazy day, a lazy mind
Let's take a long walk in the rain
A long walk in the rain
