You've got a little box of secrets
Sometimes i want to see]
What's inside
Your little box of secrets
Come open it for me
Open up occasionally

I've got a little box of secrets
Sometimes you want to know
What i hide
In my box of secrets
Be patient- i will show
You'll get a glimpse, somehow
A little box of secrets
A little box of secrets
So sweet and dark and blue
One day i will open it
To someone who is true
To someone who is true
That someone might be you
