Black Power

Black power
that's my name here in the night
where my feelings reach their heights
I feel so fine you could be mine come!

Black power
can you explain what that is
if you had it you couldn't miss
slowly I say it loud from within
fever deep within
today come to me
today come to me
today I feel free
come fun and then come
come fun and then come
come

Black power
that's what makes the world go round
that's what all these men have found
I feel so fine you could be mine come!

Black power
that's the glamour of the night
when you're holding me so tight
slowly I say it loud from within
fever deep within
today come to me
today I feel free
come fun and then come come fun and then come
