Happily ever after, happily ever after

Happily ever after  
Look at me, right where I wanna be  
My life took a turn, it's a happy affair  
I'm never alone even when he's not there

Happily ever after, happily ever after

Happily ever after  
So carefree, look what's come over me  
All my prayers have been answered, he heard my cry  
Took all my troubles and threw them aside  
Threw them aside

Happily ever after, happily ever after

Once in a lifetime  
I never thought I could be  
So carefree, so carefree

Happily ever after  
Him and me, sunshine and laughter  
We're never alone, when there's nobody there  
We're never alone, we've got love to share

Lots of love  
(Happily ever after)  
Lots of love  
(Happily ever after)

Lots of love  
(Happily ever after)  
We've got love to share

Lots of love, happily ever after  
Just look at me, right where I wanna be

Happily ever after
