I believe that love is callin'
drawin' me to you
I can feel my heart is fallin'
cause it's never felt this true
in your eyes I can see forever
like the stars above
we got lifetime to share together
one night is not enough

Chorus:

I wanna love on and on and on with you
I wanna make everytime just like brand new
I wanna love on and on and on and on with you
Yes, I Do!

There's a dream that we can follow
to last the whole life through
hand in hand we'll embrace tomorrow
baby we can touch the moon
every step that we take, will lead us
like footprints in the sand
to the shore of a blue oasis

in a distant land.

Chorus: (x2)

Bridge:

I'm never gonna let you go
I'm always gonna let you know
that your the lifeline that turned my heart around
we're livin' in the hands of faith
so baby why should we wait

Chorus: (x2)
