Lay your love all over me
Fill me to the top
If only you can set me free

With your love, your love, your love
With your love, your love, your love

Got to cool this fire
Make this burning stop
You can take me higher

With your love, your love, your love
With your love, your love, your love

Love
(With your love, with your love, with your love)
Love
(With your love, with your love, with your love)

Love
(With your love, with your love, with your love)
Love
(With your love, with your love, with your love)

Won't you come to me tonight?
Open up my door
Come and fill the night with light

With your love, your love, your love
With your love, your love, your love

Since you came into my life
I'm feeling so complete
You made a woman out of me

With your love, your love, your love
With your love, your love, your love

Since you came into my life
I'm feeling so complete
You made a woman out of me

With your love, your love, your love
With your love, your love, your love

Won't you come to me tonight?
Open up my door
Come and fill my night with light

With your love, your love, your love
With your love, your love, your love

Love
(With your love, with your love, with your love)
Love
(With your love, with your love, with your love)

Love
(With your love, with your love, with your love)
Love
(With your love, with your love, with your love)

Love
(With your love, with your love, with your love)
Love
(With your love, with your love, with your love)
