Get you in my car
Feel the fire superstar
turn up the bass and adjust the seat
I'm on you like a shark on meat

Push the button on my stereo
Then baby we can go go go
I got new speakers that go really loud
I can't wait to get away from the crowd

C'mon c'mon I wanna get you alone
I wanna have you all to my own
C'mon I gotta get you alone
And lure you into the danger zone

C'mon baby get in
Let's to up the sin
Now it's dark and there's no one around
Baby you make my heart pound
