I don't wanna talk, I'm already gone
And I can't even listen
Called all my friends, yeah they're on their way
And I don't need permission, no way!

I'm the teacher, you're the student
Pay attention and I'll show you how we do it

[Chorus:]
Get off your ass and dance
Forget about romance, and you can come and dance
Here for the party
Come along, play my favorite song
The one that turns me on, and you can come
Here for the party, Shout!

Why don't you take a seat, don't even try to leave
Baby you don't have to fight it
You can't pretend you're one of them
Cause we all know you like it, you know you like it...

[Chorus]

[Bridge:]
I'm getting off tonight
I'm getting wrecked and starting fights
My mind's on overdrive
I don't wanna stop this ride
