I can't sleep, can't even breathe you're a devious
distraction
When you put your hands on me you start a chemical
reaction

Can't think straight can't count to two all the risks that
we've been taking
I don't know what it is about you but you always leave
me shaking
Yes I'm a train wreck in the making

So strung out but it's not so bad
You're the fix I never had

[Chorus]
The first time I saw your face, I got wasted on your love
I'm a total wreck I'm a basketcase, I'm a user your my
drug

I can't seem to stop myself when it comes to
indiscretion
I left my conscience somewhere else,
Another public make out session
It's a late night confession, shhh

Can't wake up and I can't come down
I want it bad I want it now

I'm already gone (La la la la la)
I'm barely hangin' on (La la la la la)
I'm passed out on your lawn (La la la la la)
All the damage that you've done
Your turning me into a fiend

The first time I saw you face...
The first time I saw your face...
Oh oh oh oh...
