Think I'm tryin'
But inside I'm really dyin'
When I just like to be flyin'
But inside I feel like cryin'
I'm feelin'
This feelin'
My breathing'
Even if I can't figure my way in this life,
I still be leaving
And that one day(that was one day)
I made my reservation
Said I hate this part of my life,
I need to get to my destination
So please (Oh please)
Lemme' up aside of those lakes
I'm trying to find my place,
But I just can't make my fate
No!

I ended my life,
Servant student my way
Still I say,
I gotta ran away
I'm tired of hidin'
I swear I'm never leavin'
Don't know where I'm headed,
But I gotta run away
(Repeat)

Yo,
I'm so tired of life
I aint workin' 9-5,
I seachin' to find a life,
And I'm certain that I go right,
Every person in my ryhmes,
Got hurts up in they life,
Is he worthless until you find,
You purpose and then you shine,
And these word in this terrorize
And the lord is a friend,
And before don't spend no dimes,
I gotta pull my life together, man

It's never better to shine in any weather,
I had a dream to rule the world,
But I gotta get my life together man

I ended my life,
Servant student my way
Still I say,
I gotta ran away
I'm tired of hidin'
I swear I'm never leavin'
Don't know where I'm headed,
But I gotta run away
(Repeat)

Oh,
Rushin my life,
Takin my time,
Waste my mind,
Now I'm in too deep (fallin')
Diggin' a home,
Now I'm out of control,
Out of control,
My heart is beating (fallin')
Being in a coma,
Breathin' slower,
See my soul go past my life (fallin')
Hepiloma,
Teminsoma,
Evil wombs inside(fallin')

I ended my life,
Servant student my way
Still I say,
I gotta ran away
I'm tired of hidin'
I swear I'm never leavin'
Don't know where I'm headed,
But I gotta run away
(Repeat x2)

I ended my life,
Servant student my way
