She comes on like daylight softly creeping  
Sneaking through the glass  
When I taste her lips  
I know the night time ain't for sleeping  
Cause morning comes too fast with Merilee  
Sweet Merilee

### CHORUS

Merilee please don't go  
Merilee please don't go  
I need you so  
You've got to know  
I'll never let you go  
Merilee

Laying on her side  
The clouds desert the sky  
Washing her with moonlight  
In a Cinderella sleep  
The twilight kissed her eyes  
Dream a little dream of me tonight Merilee  
Sweet Merilee

### REPEAT CHORUS
