Don't lie to me
Don't lie to me
Don't lie to me

You were saying one thing but you meant another
I should've known, I should've known
Just went through the same thing trying to avoid
another
I should've known that this would come

You were sayin' one thing till you meant another
I should've known, I should've known
I could bet you loved me but you was undercover
I should've known that this would come

Here comes the rain again every time you lie to me
Baby it's pouring when you don't confide in me
Thunder and lightning every time you make a scene
Falling, falling on down, I feel it coming now
Here comes the rain again

You were saying one thing but you meant another
I should've known, I should've known
Just went through the same thing trying to avoid
another
I should've known that this would come

You were sayin' one thing till you meant another
I should've known, I should've known
I could bet you loved me but you was undercover
I should've known that this would come

Here comes the rain again every time you lie to me
Baby it's pouring when you don't confide in me
Thunder and lightning every time you make a scene
Falling, falling on down, I feel it coming now
Here comes the rain again

Drip drops and, drip drops and
Drip drops and it all falls down
Drip drops and, drip drops and
Drip drops and it all falls down

Drip drops and, drip drops and
Drip drops and it all falls down
Drip drops and, drip drops and
Drip drops and it all falls down

Hey, every time you lie to me, every time you lie to me
It's pouring when you don't confide in me
Thunder and lightning every time you make a scene
Falling, falling on down, I feel it coming now
Here comes the rain again

Every time you lie to me
Baby it's pouring when you don't confide in me
When you don't confide in me
Thunder and lightning every time you make a scene
Falling, falling on down, I feel it coming now
Here comes the rain again

Drip drops and, drip drops and
Drip drops and it all falls down
Drip drops and, drip drops and
Drip drops and it all falls down

Drip drops and, drip drops and
Drip drops and it all falls down
Drip drops and, drip drops and
Drip drops and it all falls down
