Let me start by sayin' I still love you
But when you were gone I met somebody
I don't know, I don't know what to do
Which one?

I never meant to be in the wrong
Though I must admit that she had me gone
Caught up in believing that she was the one
I created a storm

Let me explain what's goin' on
She kept me sane when you were gone
I never knew all the things she would do
They remind me of you

I know I love her but I gotta be sure
She reminds me of the one I adore
I don't wanna be confused anymore, I gotta pick one
Which one? Which one?

I know this is strange but let me go on
It's like the more that she stayed the more she
belonged
Wanted to escape but it kept getting stronger and
stronger
I couldn't leave her alone

When I met her things suddenly changed
Now I'm stuck in the middle tryin' to find, find my way
I'm wonderin' if this is all a mistake
Nothing will ever be the same

I know I love her but I gotta be sure
She reminds me of the one I adore
I don't wanna be confused anymore, I gotta pick one
Which one? Which one?

Baby, I'm in love
I'm in love with her too
I know that it seems unfair
And then what can I do?

I know I love her but I gotta be sure
She reminds me of the one I adore
I don't wanna be confused anymore, I gotta pick one
Which one? Which one?

It wasn't supposed to be like this
I mean it was one kiss and then we made love
I'm sorry, I gotta pick one
Which one?

I know I love her but I gotta be sure
She reminds me of the one I adore
I don't wanna be confused anymore, I gotta pick one
Which one? Which one?

I know I love her
She reminds me
I don't wanna be confused anymore, I gotta pick one
Which one? Which one?
