This go out to all the dj's that are been supporting us,
the one who makes us laugh, and the one who makes
us party, can i have this dance I wanna shake my body,
now hear them stretching, we hear them talkin, their
work is magic and we enjoy it, there's not just
sometimes makes me wanna be a dj, just play a tune
and watch all the hands wave, so give it up for them,
let me see all your hands, play it again and again and
again... cuz

Chorous:

This is for the dj's
that be rockin me,
day and night for you and me
so hot they is
keep the fire comin
?
plus we have a fun
This is for the dj's on the radio
that people give it up for their show
and they ain't stopin
plus the beat is rockin
so keep the funkin
everytime they play my song, makes me feel so good,
makes me wish i could, make it never stop, cuz when i
stop with it, then i rock with it, bring it down and back
out so i can pop with it and I know that they're keepin it
up for sure, yeah they gotta lock down so give it up for
them let me see all your hands and again and again
and again
