Ooh boy you got me thinking things I wanna do to you
Yes and I am seeing me and you together making love
(Love)

Maybe I can take you out show you how a fly girl do
Tell you what I'm all about (They can see I'm really
feeling you)

Don't worry 'bout it but I got speak my mind (My mind)
And thou you seem kinda cool (So cool)
Too many guys I've been used by (Used by)
So tonight I'll make up the rules

I want you closer to me and put your hands on my body
He seem so sweet that it would so make him want it
right now
I'll tell you how I like it plus I decided I'm the one in
control tonight
We'll go my way, I say you do, and when I'm done I
might give you
Just what you need cause I am priority tonight

Before you to be understanding and open to learn what
I choose you to do
I'll tell you what it's gonna be you just listen and follow
my lead
Satisfaction guaranteed at least for me
