

Black Buddafly "Make It To The Top"

Visit "[Make It To The Top](#)" on MotoLyrics.com

The goal is to make it at last, they shut u you down fast
You wanna fight back, fed up with how it feels when it
seems, you're losing your dreams
And you so patiently been holding on to them
Problems occur, your view is all blur, money rules the
world, it's just like that
It ain't simple but get it, don't waste your talent, stand
thru this battle
Cause it's your struggle

You wanna come up fast
Be sitting on stacks
It ain't simple but get it
This is for all my hustling peeps
Who go for their dreams
Who risk for their status
And if you feel me put up your hands
Be the best that ya can
If you fail do it again
You wanna do what you want then don't stop, make it to
the top

Now when your motivation fails, you seeking for help
You're weak not yourself, been through too much to
Take anymore, feel like you can't score
Like you're going through war, with everybody
No one on your side, to help make it right, wanna go
but it's like, the door is closed up
Right in your face, so create your own space
The right time and right place will come if you got it

Oh no no, don't let nobody just come and stop ya
From following your dream, gotta be what you wanna
be
Stand up and do it, there's nothing else to it, just prove
it, prove it
Anything you can be! So make them see!
All you gotta do is believe

[RAP]

Now everybody just throw your hands high, high to the
sky

If that's where you wanted to shy
Stand in line with Black Buddafly fly
We gotta get it this rib, if I stayed there I feel
Like I'm better than everybody everywhere
I been rocking many years never stopped and never
scared
I'mma prob'ly shed a tear when I reach the top floor
I'm in the lobby now I'm tryna get real high like I'm
Bobby Brown
Touch the world like 'Pac when he got around
Any obstacles I knock 'em down
I'm too hot for TV too smart for the streets too real for
the kids
Too much for just be
And y'all wanna fall asleep might wake up in the days
for some days or a week
I'mma be's from the bottom rising high now
If you can't stand ur nine to five throw ur hands up
again

All you gotta do is believe!

You wanna come up fast
Be sitting on stacks
It ain't simple but get it
This is for all my hustling peeps
Who go for their dreams
Who risk for their status
And if you feel me put up your hands
Be the best that ya can
If you fail do it again
You wanna do what you want then don't stop, make it to
the top

You wanna come up fast
Be sitting on stacks
It ain't simple but get it
This is for all my hustling peeps
Who go for their dreams
Who risk for their status
And if you feel me put up your hands
Be the best that ya can
If you fail do it again
You wanna do what you want then don't stop, make it to
the top
