Get up bitch, get up bitch, get up bitch, get up
Get up bitch, get up bitch, get up bitch, get up
Chick on pole, I'm bout that life
Phantom rose, I'm bout that life
He ain't bout that life, he ain't bout that life
I'm bout that life, sipping lean,
I'm bout that life, blowing green
I'm bout that life, ... sit there and talk shit all night
You and I know he ain't bout that life, he ain't bout that
life,
he ain't bout that life, nigga sit there talk shit all night
You and I know he ain't bout that life, he ain't bout that
life,
he ain't bout that life, nigga sit there talk shit all night
You and I know he ain't bout that life

Like an oldschool pimp, I keep them toes ...
The game can hang it up, cause I ain't calling back
My money's bringing ... them haters falling back
I'm flying in a spaceship, what you calling that?
The night be hating on me, cause I shine through
Ignoring price tags, Juicy blind to them
Done did it, done seen it all
Dirty south show money, I done cleaned it all
30 bad white hoes in they stripper clothes
I gotta find ... suck my dick, I'm way too throw
The pimping need the same, just getting different
brain
The bitches know I'm winning, I brought them to the
game

Chick on pole, I'm bout that life
Phantom rose, I'm bout that life
He ain't bout that life, he ain't bout that life
I'm bout that life, sipping lean,
I'm bout that life, blowing green
I'm bout that life, ... sit there and talk shit all night
You and I know he ain't bout that life, he ain't bout that
life,
he ain't bout that life, nigga sit there talk shit all night
You and I know he ain't bout that life, he ain't bout that

life,
he ain't bout that life, nigga sit there talk shit all night
You and I know he ain't bout that life

I been about that life since your daddy was talking
about sugar water...sandwich
Back when my favorite dinner was ... my mama ... fried
and a salad
... or a drink, ... in the green, to keep me a little off
balance
... nigga lean on me, yeah pour yourself a cup, yeah
drinks on me
Let go... and that gun in his lap, that's bricks on me
So you don't wanna get it popping in this motherfucker
You don't wanna get it popping nigga no
... Like yeah bitch break me out
Magic city in the middle of my lap
Recognize that you fucking with a boss
So wanna suck it ... how much is gonna cost?
They didn't go over with, I'm just a young country nigga
from the ATL
I can never be a thug, they know just as well
I can never be a thug, they know just as well

Chick on pole, I'm bout that life
Phantom rose, I'm bout that life
He ain't bout that life, he ain't bout that life
I'm bout that life, sipping lean,
I'm bout that life, blowing green
I'm bout that life, ... sit there and talk shit all night
You and I know he ain't bout that life, he ain't bout that
life,
he ain't bout that life, nigga sit there talk shit all night
You and I know he ain't bout that life, he ain't bout that
life,
he ain't bout that life, nigga sit there talk shit all night
You and I know he ain't bout that life
