On a winter's day in a small cafe I met her  
When she turned and smile at me  
I knew I had to stay

As the time went by and the winter's sky grew darker  
It was hard to leave her there  
When I heard her say

\*Time will not change me  
Winter ain't no snow  
Look at me, oh look at me  
I'll be here so come on and love me

\*\*Anytime sunshine  
I'll be here anytime that you want me  
Anytime sunshine  
Anytime you're near  
You bring me sunshine  
Every time you call  
Anytime sunshine  
Anytime at all

Now ever since that day to the small cafe I wonder  
Knowing she'll be waiting there  
And begging me to stay

Now let the years go pass  
In my mind should last forever  
Still I feel her close to me  
And I'll hear her say

(Repeat \* and \*\*)

Anytime sunshine...  
I'll be here anytime that you want me (Till fade)
