Whenever I see you I need more
And want you to stay â€˜til the end
One look at that smile and Iâ€™m all yours
Will you just smile at me again
Chorus
I have you to thank for making me so
So hard to please because you treated me so
Good that no one else could hold your make-up
Because of you girl I never want to break up
The difference Iâ€™m feeling in my heart
Is the difference of loving or not
And under the stars and moon and sun
Is the perfect becoming of one
Chorus
I have you to thank for making me so
So hard to please because you treated me so
Good that no one else could hold your make-up
Because of you girl I never want to break up
Bridge
If I told you that I loved like an ace
Then Iâ€™d be lying â€˜cause Iâ€™ve made some
mistakes
But Iâ€™m trying with perfect faith
When I let you in
I began to win
And now Iâ€™m just all gold
After all Iâ€™ve done
And the road Iâ€™ve run
I want to thank you
I want to thank you
Chorus
I have you to thank for making me so
So hard to please because you treated me so
Good that no one else could hold your make-up
Because of you girl I never want to break up
