We're flying high on a velvet sky  
With the wind on our wings  
Climbing easily on the breeze

We're flying easy  
And we do just what we please

We drink the breezes as we drink wine  
And the nectar is sweet  
Now the feeling we have is fun

We're flying easy  
Drifting on a summer breeze

The trip is smooth and we gently glide  
We ride the rainbow and we see to a tee  
How happy it can be to be free

We gather gold from the evening sun  
And it's heavenly hues  
And we don't have a thing to lose

We're flying easy  
And we do just what we choose

The trip is smooth and we gently glide  
We ride the rainbow and we see to a tee  
How happy it can be to be free

We float and there is no thought of time  
'Cause were singing of love  
And the pleasure is so divine

We're flying easy not a worry on our mind  
Easy not a worry on our mind  
We're flying easy on a breeze  
Flying, flying, flying
