No one has to be alone
In this world we live in
You don't need to feel
There's no one by your side
Everything you see
Is a gift you're given
Anywhere is home
And no one has be
Alone

There is so much that surrounds us
There are friends we've yet to find

There are dreams to be discovered
And dreams to leave behind

All the wonders up above us
And splendors down below

There is so much more to everything
Then we can ever know

You don't have to be afraid
Of being lost and lonely

Everything you need
Is right before your eyes

Each bright and shining day
Is waiting for you only
Make this world your own

And you'll never be alone

Remember
No one has to be
Alone
