I guess you know what's on my mind, I want you near  
me so please don't waste my time.  
I may change my mind before tomorrow, so don't give  
yourself a chance, girl,  
to be sorry.  
Oh no...

Don't say no to me this time.  
Give my love a try before you make up your mind.  
Let me be the one to share your tears.  
And if you say no, you'll never know what you missed.  
Love, it's all in your eyes, in your touch and in your  
smile.  
Don't say no, I want and need you way too much.

When you're with him, you look so fine.  
But we both know, little girl, he's not your kind.  
You need someone that you can't control.  
And if you'll be mine, I'll never, ever let you go.  
Oh...

Don't say no to me this time.  
Give my love a try before you make up your mind.  
Let me be the one to share your tears.  
And if you say no, you'll never know what you missed.  
Love, it's all in your eyes, in your touch and in your  
smile.  
Don't say no, I want to be with you too much.
