Sleep on, little darlin', the sun's about to rise, sleep on,  
little darlin',  
don't you open up your eyes.  
I'd like to stay here with you, because you're outta  
sight, but baby, I'm a  
rover, and it's getting light.  
It's time to ride, time to ride, time to ride...

All I ever need, babe, I'm wearin' on my back, I'm a  
man who travels light,  
babe, so I got no need to pack.  
I'd like to stay here with you, and try to make things  
right, but baby, I'm  
a rover, and it's getting light.  
It's time to ride, time to ride, time to ride....

It's true I want somebody walkin' by my side, it's fine I  
love somebody, but  
what I love is wide.  
I'll always think about you when I lie awake at night, but  
baby, I'm a  
rover, and it's getting light.  
It's time to ride, time to ride, time to ride...
