You lead me in a brand new town
Where the love is the only word
Where blue lights run in my heart

Lover's dream, lover's dream
Blue moon, you send my mind
To another star, to a paradise

Angels, angels, you are my delivery

You lead me in a brand new town
Where the love is the only word
Where blue lights run in my heart

Lover's dream, lover's dream
All seems to me much love
Flowers are amorous
The softness in my hand

Angels, angels, you are my inspiration

You lead me in a brand new town
Where the love is the only word
Where blue lights run in my heart

Lover's dream, lover's dream
A girl walks, and she walks in a
Sweetened perfumed scenery
I'm feeling alive again, yeah
Again, so, angels, angels, ah,
Sing for me this melody

You lead me in a brand new town
Where the love is the only word
Where blue lights run in my heart
Angels, so angels, sing for me

You lead me in a brand new town
Where the love is the only word
Where blue lights run in my heart
