Turn off that computer
for a while and feel and
hear what ive got to
say, your life and our
lives are much more
than a file on a disk
can't calculate that way
thereis no need to hide
behind that wall, to
keep your feelings inside
at all, to convert your
life into boring numbers
hey-ho! wake up from your slumbers
(while you sleep) i have my fun
(while you sleep) i feel and enjoy
(while you sllep) i see the sun
(while you slepp) im playing
with my toys
don't need any artificial
maturity when everybody
knows that there's a child
inside of me,i don't want
to be dreccocious, don't
want to grow up,i want
to live my emotions!
(if you don't get the point then
a)perhaps you're too old and too
cold to
b)perhaps you don't understand
the english language
c)not
