"Disappear"

The morning daylight burns my bloodshot eyes Feel
like a vampire in my bed Been so restless, a total mess
It's just the hammers in my head

Take me down, underground Whoo-hooo, hey, whoo-
hooo I'll disappear without a sound Put my bones to
sleep Won't you help me? Take me down, underground
I'll find my peace when i Lay me down, underground
Whoo-hooo, hey, whoo-hooo

The lullabies and pills don't work no more So please
lobotomize my brain Or take the shovel and dig a hole
Because i'll wake up, wake up dead again

Take me down, underground Whoo-hooo, hey, whoo-
hooo I'll disappear without a sound Put my bones to
sleep Won't you help me? Take me down, underground
I'll find my peace when i Lay me down, underground
Whoohooo, hey, whoohooo

Take a crucifix or take the holy water Can't you just put
me to rest? Take the silver bullets, take the wooden
stakes and Drive them deep into my chest Do me in...

Take me down, underground Whoo-hooo, hey, whoo-
hooo I'll disappear without a sound Put my bones to
sleep Won't you help me? Take me down, underground
I'll find eternal peace Put me down, underground
Whoo-hooo, hey, whoo-hooo
