"Get It Right"

why can't we just bury the hatchet
instead of dancing on each other's grave?
i'm sick of listening to the gun-fire
there's got to be something more important
these days are hard on everybody
and we had better try to ease the pain
the bigger enemies are out there
don't let it all go down the drain
can't we just get it right?
do we have to play the fool?
can't we just get it right
and stand together side by side, yeah
i thought we were all in this together
one million people standing up for one
why can't we get our shit together?
how hard can we try to fuck it up?
get it right now
why can't we just get it right
together side by side
one for all (yeah)
all for one (right)
