"Let It Go"

First things first
Nothing lasts
So don't settle for second best
Mend the hole
In your chest
Cause what you see is what you get

So get on with your life when it's over
Let it rest, leave the past in the past
Reconsider yourself when you're sober
Save the best, make it last, make it last

Just let it go, make it fade, let it slide
And forget what you know
Take a break, make a change, take your time
Let it go, let it go
Let it go, let it go
Take a break, make a change, take your time
Let it go, let it go

Keep the songs
In your head
And put all the white noise to rest
Songs about
The times you had
About all the names you won't forget

So get on with your life when it's over
Let it rest, leave the past in the past
Reconsider yourself when you're sober
Save the best, make it last, make it last

Just let it go, make it fade, let it slide
And forget what you know
Take a break, make a change, take your time
Let it go, let it go

Reconsider yourself
Forget what you know
Leave the past in the past
Let it rest, let it slide, let it go

Just let it go, make it fade, let it slide
And forget what you know
Take a break, make a change, take your time
Let it go, let it go
Let it go, let it go
Take a break, make a change, take your time
Let it go, let it go
