"Play Dead"

Visit "[Play Dead](#)" on MotoLyrics.com

YouÂ´re the killer and the victim
you ainÂ´t got no alibi and you cannot escape
youÂ´re just another person
sending out the invitation to your funeral

hereÂ´s to the end, to giving up and giving in
you did it all to yourself
start at the end, wash the blood from your hands
and start it all over again

once again

spit into the wishing well
save the coins for the drinks in hell
you gotta play the hand your dealt
or just roll over and play dead

you need a resolution
youÂ´re only fighting symptoms not the disease
so break the cages that surround you
and admit to yourself that you canÂ´t find your peace

so wash the blood from your hands and do it
again, again
start it all over again and then
start at the end

spit into the wishing well
save the coins for the drinks in hell
everybody, place your bets
will you roll over and play dead?
