All aboard the sinking ship
Lift the anchor, wave the flag (and)
Set the sails, we're going down
Gonna kiss the ocean ground
Get on board and sing the songs
Till the water fills your lungs
Don't care if we drown tonight
There ain't no land in sight
Somewhere someday

All aboard the sinking ship now
There's no need to pray
We're gonna meet again somehow
Somewhere, someday

All our hopes have sprung a leak
Haven't seen a shore for weeks (so)
Save my soul, i'm going down
Overboard and underground
To the bottom of the sea
The only place I want to be now
Swallowed by the ocean black
Stay with me, stay on deck
Somewhere, someday

All aboard the sinking ship now
There's no need to pray
We're gonna meet again somehow
Somewhere, someday

All aboard the sinking ship now
We're gonna meet up someday
Aboard the sinking the ship now
We're gonna meet up someday
Somewhere someday
Somewhere someday
