It's what you say
And you don't do
Nothing's sacred
And you're nothing new
You spend your time
Wasting your time
And I know you hate it
When I don't do
You're blaming me
For what you don't get done
It's the envy
Standing between you and your fun
You're so careful
About not caring at all
How many angels
Does it take to catch your fall?
Yeah, I got you figured out
Yeah, I know what you're all about
And you bring me down
You bring me down
You've found a place
Where you belong
Get out of here no
Don't get me wrong
You've found a way
To kill your time
Get out of here now
And don't kill mine
You bring me down
As I watch you fall
You bring me down
Down, Down
You bring me down
Yes you do
How deep can you fall?
